

TEAM Leafy Spurge

team members

Co-Principal Investigators

- USDA-Agricultural Research Service
- USDA-Animal & Plant Health Inspection Service

Participants

- The states of Montana, North Dakota, South Dakota and Wyoming
- Montana State University
- North Dakota State University
- South Dakota State University
 - University of Wyoming
- Theodore Roosevelt National Park/National Park Service
 - U.S. Forest Service
 - U.S. Geological Service
- Bureau of Land Management
 - Bureau of Reclamation
 - Bureau of Indian Affairs
- State Cooperative Extension Services
 - County Weed & Pest Boards
 - Rocky Mountain Elk Foundation
- National Biological Control Institute

*Team Leafy Spurge would like to give special recognition to the most important team players of all - the **RANCHERS & PRIVATE LANDOWNERS** who are cooperating with the project and helping demonstrate effective, affordable leafy spurge control strategies.*

Other TEAM Players

- Central Missouri State University (Warrensburg, Mo.)
- University of California-Davis (Davis, Ca.)
- European Biological Control Laboratory (Montpellier, France and Rome, Italy)
- Sino-American Biological Control Laboratory (Beijing, China)
- USDA-ARS and -APHIS facilities in Beltsville, Md.; Peoria, Ill.; Columbia, Mo.; and Mission, Tx.

Teamwork

is the cornerstone of TEAM Leafy Spurge, which has assembled some of the nation's most experienced leafy spurge researchers and land managers into a focused, goal-oriented team. The program's collaborative nature allows participants to share resources, expertise and data in a team effort to more effectively work towards a common goal - finding effective, affordable and ecologically sustainable ways to control leafy spurge.
